## Gratnells, Plastic boxes and rail systems.

Our Gratnells plastic boxes and rails have been optimised several times since their introduction in 2005.

Since 2021 there is a VS Gratnells box with integrated pull-out lock. This box can only be used with the current single rails (generation 2017) and the adjoining multiple rails (generation 2018).

The standard Gratnell box can be used with the rails of the generations 2005, 2012, 2017 and 2018. Only pull-out protections have to be removed or added (compare above).

**Current multiple rail (generation 2018)**  
available as 2-fold, 8-fold, 10-fold and 12-fold rail  
each as left and right side part
