Nameplate, hanging nameplate holder and business card holder.

We always design our cupboard series according to the ideas given to us by our customers. In doing so, we can manufacture and design your cabinets individually for you. That is why we offer you to personalise your cabinets with name plates, hanging nameplate holders and business card holders.

The nameplates and hanging nameplate holders can be used on our shelves, letter trays and letter slots. Doors can also be fitted and personalised with our business card holders and nameplates. Our nameplates and business card holders are attached with supplied adhesive strips and the hanging nameplate holder are attached with 2 screws each.

The nameplates can be used for all our cupboard series. Please note the thickness of the shelves and letter trays when attaching the nameplates. These can be fitted from a thickness of 19 mm.

Note:
To identify your model, please note the label with the order (AB) and model number and week of delivery (LW) on the cabinet.

Please note the following markings:
blue = product family no longer available for delivery
